

The London Public Health Forum presents:

Next steps in the pan-London public health restructure: evolving our leadership

Monday 15 September, 10:00-11:30

Objectives

This London Public Health Forum brings together public health leaders, practitioners, and their teams from across London to:

- To hear from Prof Kevin Fenton on the importance of public health leadership and opportunities for positioning public health. How do we take advantage of system change and have the greatest impact on population health outcomes?
- To better understand the nature of organisational restructuring in different parts of the system.
- To hear from system leaders on how they are interpreting the 10 Year Plan and related policy documents.
- To consider how to get public health voice heard and recognised as key to what the NHS does. Making the maximum impact with the minimum noise.
- To consider the leadership role of public health in local authorities to strengthen the quality of delivery in health and care settings.
