

# COLLABORATIVE NEWS

Issue 3 April 2024

## COLLABORATIVE ONLINE

At the most recent meeting of the Cumbria & Lancashire Public Health Leadership Group (Friday 12th April 2024), we launched our new [website!](#)

Hosted by the Association of Director's of Public Health (ADPH) our website pulls together information about the Collaborative, who we are, what we do, the progress we're making, as well as details of events we think people might be interested in.

We'd really appreciate it if you could spend some time taking a look at the website, and if you've got any feedback or suggestions of how we might develop it please let us know.

### COLLABORATIVE FUTURE PLANS

On Friday 19th April the Collaborative Leadership Group are holding a Planning Session which will determine our priorities and how we work together to achieve them in the coming 12 months. We'll use our next issue of Collaborative News (and our website!) to keep you all posted on what's agreed and how you can get involved.

### THANK YOU

Thank you to all of you who have sent feedback on Collaborative News - and to those who have shared Collaborative News with colleagues.

Please continue to do so!

All feedback is gratefully received, as are suggestions for content.
