

The aim of the Snapshot is to provide a monthly Practice Improvement (PI) update to DsPH and their public health teams. The Snapshot is produced and managed by Jodie Demmery (SW PI co-ordinator) and Kate Blackburn (SW PI lead). If you have something that you would like included for the next issue, or any questions on what is featured in this issue, please get in touch (Jodie.Demmery@southglos.gov.uk).

### Explore Our Refreshed Practice Improvement Webpages on the South West Association of Directors of Public Health (SW ADPH) Microsite

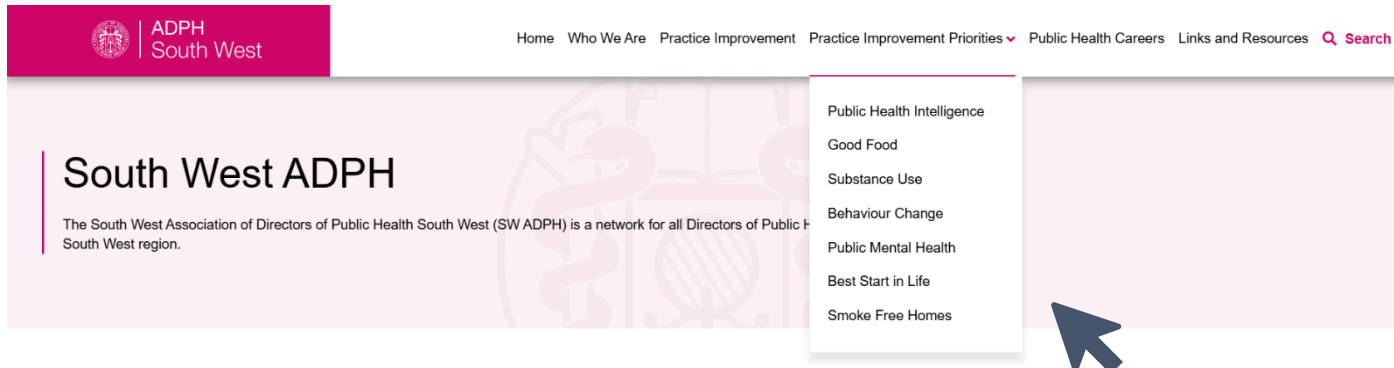

The SW ADPH microsite has had a refresh, with new and updated pages dedicated to Practice Improvement across the South West.

The site now brings together information on some of our current and previous Practice Improvement priorities, providing a useful place to explore how the programmes have developed, links to shared resources and the work taking place across the region.

Practice Improvement is a collaborative effort, bringing together SW ADPH and partners across the wider public health system to support shared learning, strengthen practice and drive improvement. The refreshed pages offer an opportunity to find out more about this work and the priorities we have collectively focused on.

Take a look at the refreshed microsite and explore our Practice Improvement work:

[Home | South West](#)

Please note, the priorities shown represent selected examples of collaborative Practice Improvement work and do not capture all activity taking place across the South West and within the SW ADPH network. Practice Improvement is continually happening across the region outside of this plan in business-as-usual workstreams.

### Understanding Practice Improvement

What do we mean by Practice Improvement?

Visit our refreshed webpage to explore what Practice Improvement means, what it encompasses, and how different elements of the approach come together in the Practice Improvement Venn diagram.
